MEXICAN PLOT TO OVERTHROW PRESIDENT DIAZ

**SAID TO BE BACKED BY 5000
CONSPIRATORS INCLUDING
PROMINENT MEN.**

ARRESTS EXPECTED SOON

Marquese Now in Texas Says the
Government Authorities Are
Aware of Plot.

(Bulletin.)
San Antonio, Texas, Dec. 27.—A
plot to overthrow the government of
Mexico and depose President Diaz,
backed by 5,000 conspirators is said
by C. V. Marquese to exist. He re-
cently returned from Mexico where
he insists that he learned the details
of the plot. Members of the liberal
party are accused as the instigators
of the conspiracy. Marquese says
that the Mexican authorities have
knowledge of the plot and that it is
expected that prominent men charged
with being implicated will be arrest-
ed.

WEHRLE COMPANY NOW PREPARING TO MAKE GAS STOVES

**PATTERNS ARE NOW READY AND
SAMPLE STOVES HAVE
BEEN MADE.**

Wehrle Safes in Demand in San
Francisco After Earthquake—A
Big Shipment.

The Wehrle Company is now pre-
paring to manufacture gas ranges
and heaters. The patterns are ready
and two sample ranges have been
made. The new product will be put
into the market in the spring.

The company has never made this
class of work and this new line add-
ed to its already large class of goods
would seem to insure a good future
business.

There are many rumors afloat re-
garding the future plans of this big
concern, but nearly all of them are
without foundation. The statement
that the company is about to begin
the manufacture of gas stoves is
authentic.

Heavy shipments of stoves con-
tinue from the Wehrle foundry and
the large stock is being reduced.

A large shipment of safes made
by the Wehrle company and sold to
a San Francisco dealer arrived in the
city just after the earthquake. Safes
were in great demand then, and the
dealer is said to have made a big
profit over the usual figures for such
goods.

BOTH DROWN.

**Man Makes Futile Attempt to Rescue
Boy From Water.**

Morrisstown, N. J., Dec. 27.—Before
the eyes of his young wife, George
Davis, 25, lost his life in an unsuccessful
attempt to save John Arke, an 18-
year-old boy, from drowning. The boy
was out on the ice of Rockaway river
and broke through. Davis and his
wife saw Arke drop into the water,
and Davis cut down the clothesline in
his yard and tied one end around his
waist. He gave the other end to his
wife and started toward the boy.

Lying down, Davis reached out and
seized Arke, and shouted to his wife
to haul in on the rope. She drew her
husband back from the hole until the
boy was out of the water. As she
started to pull again the rope broke
and the man and the boy slid back
into the water and were drowned.

MAY MODIFY ORDER

Washington, Dec. 27.—As one result
of the bitter controversy between
Secretary of the Interior Hitchcock
and the Senate committee on Indian
affairs, it is now likely that the
secretary will modify his order with-
drawing from allotment 4,000,000 acres
of land in Indian territory. Chief
Forster Pinchett on whose recommenda-
tion the original withdrawal was made,
has suggested officially that the
amount be reduced to 500 acres.

SQUIRES IS COMING

San Francisco, Dec. 27.—Bill Squires,
Australian heavy weight champion,
cables that he will sail from Melbourne
January 28 for a contest with Jim
Jeffries at Rhydydd, Nevada, in April for a
\$30,000 purse.

WM. C. MILLER TAKES A DESK AT LICKING BANK

**FIRST VICE PRESIDENT BEGINS
ACTIVE DUTIES IN NORTH
SIDE INSTITUTION.**

RETAINS INTEREST IN STORE

President W. N. Fulton Expects to
Leave Soon to Spend Vacation
in the South.

Capt. William C. Miller, secretary-
treasurer of the Powers-Miller com-
pany, has just taken a desk at the
Licking County Bank and Trust
company, of which financial institu-
tion he is vice president, and from
now on will be actively identified
with the bank.

The change does not involve any
sale of the Powers-Miller company's
stock as Capt. Miller will retain his
interest in the big store, but from
now on Mr. Miller's personal atten-
tion will be largely given to the bank.

The president of the Licking Coun-
ty bank, Mr. W. N. Fulton, has not
resigned as was currently reported
recently, but he will leave with Mrs.
Fulton and his daughter, Miss Grace,
for St. Petersburg, Fla., early in Jan-
uary to remain during the winter.
Mr. Fulton says he will resume his
place in the bank upon his return
from the south.

Mr. A. G. Wyeth is the second
vice president and Mr. W. Gard is
secretary-treasurer of the North Side
bank.

IN DESERT

**Remains of Professor Cindell and
Party Are Found.**

El Paso, Tex., Dec. 27.—The re-
mains of Professor Thomas Grindell
and his party, who left Douglas, Ariz.,
in June, 1904, on an exploring expedi-
tion to Tusirun island, located in the
Gulf of California, but who was never
afterward heard from, have just been
found in a desert in Sonora, where
they perished evidently for want of
water. The identification was made
through letters addressed to Grindell
found with the remains. Grindell was
principal of the Douglas schools.

SHOT HIMSELF

**But No Reason for Action is Known.
Brown Has No Chance
To Live.**

New York, Dec. 27.—Benjamin
Brown, financial manager of the
American and United States Express
companies, shot and probably fatally
wounded himself while in an office of
the two companies in the Williams-
burg section of Brooklyn. Mr. Brown,
whose duty it is to inspect the Brook-
lyn offices, sent the manager of the
Williamsburg office away on an er-
rand, seated himself in the window
and fired a shot through his lungs. A
second shot which he fired went wild.
The shooting was witnessed by a num-
ber of pedestrians who were passing.
Mr. Brown was removed to a hospital,
where it was said there was no chance
of recovering. No reason for his ac-
tion is known.

HEAVY FIRE LOSS

Wilmington, Del., Dec. 27.—Fire
caused by an explosion in the engine
room of the Wilmington Candy com-
pany spread to adjoining buildings and
resulted in a loss estimated at \$750-
000 today.

DIG GRAVE IN ST. LOUIS.

St. Louis, Mo., Dec. 27.—Fire of
unknown origin this morning de-
stroyed the building at 716 Locust
street, occupied by the headquarters of
the Laclede Gas Light company. Two
firemen were slightly injured by
falling glass. Total estimated loss
\$100,000.

WAGES ARE HIGHER SO ARE EXPENSES

New York, Dec. 27.—Figures gath-
ered by World correspondents in vari-
ous states showing comparative in-
creases in wages and the cost of liv-
ing are printed today. Generally the
statistics show that while there are
some notable increases in wages, they
have not kept pace with the rise of
the cost of commodities. In Ohio it
is estimated that wages have advanced
20 per cent in the five years while
prices have risen 35 per cent.

ARTIST CLARK DIES.

New York, Dec. 27.—Walter Aris-
ton Clark, the well known artist
and illustrator, died suddenly from
heart disease today at his home.

INMATES OF THE LEPER COLONY IN NEW YORK.

BUILDING WHERE LEFERS ARE HOUSED ON BLACKWELL'S ISLAND.

FIVE
MEMBERS OF
LEPERS COLONY
WITH HOSPITAL ATTENDANT.

New York, Dec. 27.—Though it
was announced a few years ago that
New York's leper colony had been
abolished, there now exists on Black-
well's Island a leper colony consist-
ing of five wretched men, each of
whom is awaiting as patiently as
possible the only release for which
he can hope.

This announcement that the city
is again caring for its lepers
will come as a surprise to many. Dr.
A. S. Ashmead, generally recognized
as an authority on leprosy, asserts
that there are more than one hun-
dred well defined cases of the dis-
ease in New York. Dr. Ashmead
makes the further assertion that a
well known member of New York's
social "400" has a well developed
case of leprosy.

Housed in one of the wooden
sheds on Blackwell's Island are the
five lepers—three Chinese, a Russian
and a Dane. Ole Hansen, the Dane,
now 60 years old, is blind and in a
distressing condition of helplessness.
There is one small room they pass
the weary days and nights, do their

own cooking and repair their own
clothing.

In warm weather they spend most
of their time sitting in the sun un-
der the eave of their cabin, frequen-
tly with their hands and faces
smeared with Chamissoa oil, a pro-
duct of India and a remedy as old as
leprosy itself. The Chinese each
spring plant seeds and fashion pret-
ty little flower beds about the door
and under the windows.

Most interesting of all the distress-
ing life stories is that of Hansen,
the Dane. Physically he is merely
the decaying rind of a human being.
Yet his intellect remains unim-
paired. He can speak only a few
words at a time and his syllables
come in gasps, but as he tells the
visitor about some incident of his
life a choking laugh tries to struggle
from his throat, but there are no
longer any lips or eyes to express
his merriment.

In 1870 Hansen was sent with a
detachment of the Danish army to
the West Indies.

For several years he did military
duty in Santa Cruz, and then served
for a time on the police force there.
In 1891 he came to the United

OLE HANSEN,
OLDEST MEMBER OF LEFERS
COLONY

States and worked as a coachman in
Brooklyn. In 1896 he noticed the
appearance of strange looking spots
on his face. He consulted a physi-
cian and was sent to the Skin and
Cancer Hospital, where he first learn-
ed that his disease was leprosy. Af-
ter a short term of treatment he was
discharged as cured, but after three
months yellow spots began to appear
on his body, and he was sent to the
City Hospital, where he has since re-
mained.

BELOW ZERO

**Cold Weather Prevails in North Da-
kota, Part of Montana and
Colorado.**

St. Paul, Minn., Dec. 27.—Below
zero temperatures prevail in North
Dakota, part of Montana and Canada.
The local weather bureau reports 8
degrees below at Williston, 4 below at
Devil's Lake, N. D., and 2 below at
Winnipeg, Man., and 4 below at Min-
niedosa. A special to the Pioneer Press
from Imperial, N. D., says that Frank
Warnick, a homesteader, was found
frozen to death near his shack, three
miles north of that town. Warnick
was engaged in the printing business
on the Pacific coast eight years ago.

CLAIMED FRENCH

HAVE MADE REPLY

Rome, Dec. 27.—In spite of the de-
nials of the French government that
it has made any reply regarding the
vatican's protest to the powers on the
subject of the expulsion from France
of Mgr. Montagnini, until recently sec-
retary of the papal nunciature at
Paris, the vatican has been positive-
ly informed that M. Pinchon, the min-
ister for foreign affairs for France, has
made verbal statements in answer to
this protest to several diplomatic rep-
resentatives at Paris, who telegraphed
the minister's communication to their
respective governments.

DESTROYED BY QUAKE

Cantiago, Chile, Dec. 27.—Half of
the town of Arica, in the province of
Tacna, has been destroyed by earth-
quake, and other towns in the neigh-
borhood have suffered more or less
severely. The seaport of Iquique, 120
miles south of Arica, was not dam-
aged. With the recollection of the
August disaster fresh in their minds,
the people in the earthquake zone are
greatly alarmed.

HAD ONE WIFE

**WHEN HE MARRIED
COSHOCKTON GIRL**

Coshockton, Dec. 27.—Miss Eliza-
beth A. Johnston, daughter of H. A.
Johnston of Orchard street, is the
innocent dupe of a man who won her
hand and heart last spring.

A dispatch from Salem states that
Mrs. Agnes Wilson of that city has
been granted a divorce from Wm.
H. Wilson, and given custody of
their two children, because, while
still her husband had married
Miss Johnston of Coshockton at San
Diego, Calif., last April.

Inquiry has shown that the facts ac-
tually as stated and that Miss John-
ston had not lived with Wilson for
several months. He left her five
weeks after he married her and she
is now in Illinois.

Miss Johnston is remembered here
as a pretty and attractive telephone
operator.

FELL 500 FEET

TWO MEN KILLED

Bessemer, Mich., Dec. 27.—Elias
Lehtinen and Joseph Bardosson were
instantly killed in the Colby iron mine
here by falling 500 feet to the bottom
of the shaft with a "skip" on which
they were riding to the surface was
dumped by striking on a projecting
beam. Two other miners riding in the
skip saved their lives by catching hold
of the rope and clinging to it.

Neil Florence, 25, an actor, was
found dead in his room at a boarding
house in New York. The apartment
was filled with illuminating gas escap-
ing from two open jets.

Japanese are flocking to the Rio
Grande border, attempting to go into
the United States.

SPECIAL SESSION

**Of Grand Jury to Investigate New
York Life Insurance Company.
No Result Yet.**

New York, Dec. 27.—The grand jury
held a special session to continue its
investigation of the New York Life
insurance company, which was begun
last week. District Attorney Jerome
spent some time in summing up before
the grand jury the facts developed
during the investigation, but he de-
clined to say anything for publication.
Lewis A. Delafeld, personal counsel
for George W. Perkins, appeared at
the district attorney's office and talked
with that official. Several bookkeep-
ers of the New York Life insurance
company have been subpoenaed to
give evidence.

TECHNICAL SHORTAGE

FOUND IN ACCOUNTS

Washington, Dec. 27.—The navy de-
partment reached the findings of the
court-martial in the case of Assistant
Paymaster William C. Sypher, charged
with irregularities in his accounts.
The court found him guilty of a tech-
nical shortage of over \$1,000, and re-
commended a sentence of a reduction
of several months in grade. The sec-
retary, however, has not taken up the
case for review.

FOUR ARE WOUNDED

Tallahassee, Fla., Dec. 27.—During
a shooting affray in a ball room
here Mel Porter was wounded four
times and is reported to be dying.
Henry Brinkley was shot in the back,
James Holt in the hip, J. D. Baxter in
the back and Tom Parle in the head.
The origin of the trouble is apparently
unknown, but it seems that Brinkley
and Parker were first involved and
then the shooting became general.
With the exception of Brinkley and
Parker the wounded were, however,
noncombatants.

CORONER HAS NOTHING TO SAY ON EITHER CASE

**PROBABLY NOTHING WILL BE
DONE WITH MAN IN CASE AT
KIRKERSVILLE.**

PROMINENT ATTORNEY TALKS

Dr. Marriott is Still Conducting In-
quiry Into Cause of Two
Deaths.

Coroner Marriott reports no new de-
velopments in either the mysterious
death of David Kelley near Black
Hand or the death of Miss Minnie
Gunder of Kikersville.

If it develops that the drug which
it is claimed was the cause of the
death of Miss Gunder was purchased
by the "man in the case" upon the re-
quest of Miss Gunder, he can not be
held responsible for her death. It is
the opinion of a prominent attorney
that it will be necessary to prove that
the man prescribed or administered
the drug which the physicians claimed
resulted in death. Coroner Marriott
is still silent in the matter and will
not talk of the case for publication.

INVENTOR OF TELEVIEW TALKS

**APPARATUS BY WHICH VIEWS
CAN BE TRANSMIT-
TED OVER TELEPHONE.**

Mr. Fowler Has Invented Electric
Motor Which Runs Cars 150
Miles an Hour.

Columbus, O., Dec. 27.—An instru-
ment by which the person at one end
of a telephone line can see the per-
son at the other end and by which
also views of a room or of other ob-
jects may be transmitted by wire is
the invention upon which J. B. Pow-
ler of Los Angeles, Cal., is now
working.

Mr. Fowler was in Columbus yester-
day, the guest of J. E. Blackburn,
with whom he formerly worked in
the glass plants of eastern Ohio. The
two men also were schoolmates. The
televue as Fowler calls his inven-
tion is beyond the experimental
stage. It was on exhibition at the
Portland exposition and attracted
much attention. It has been used
over lines almost a mile long and at
this distance worked well.

Mr. Fowler is now in his way East
where he will perfect the invention,
hoping to find many ways to improve
it and make it of great use in con-
nection with the telephone or inde-
pendently of that instrument. Mr.
Fowler also is the designer of an ele-
vated electrical railway system on
which it is said experiments have
shown that a speed of 150 miles an
hour is feasible. The cars of the
road are built on a new plan and
the car generates its own power, gas-
oline being then fuel used.

Attention has been attracted to the
system in the west and Mr. Fowler
will take up the railway with eastern
traction men. Western engineers
who have examined the system speak
in high terms of it.

Speaking of the televue Mr. Pow-
ler said that it was a discovery
made while experimenting and while
he knows what transmits the light
waves he does not know why or how.
He will make a number of experi-
ments in connection with eastern
men and believes that it will be per-
fected so that it will come into daily
use.

Men and Money Missing.

Terra Haute, Ind., Dec. 27.—Checks
and money orders amounting to be-
tween \$600 and \$700, together with
receipts and pension papers valued at
\$500, are missing from the office of
John H. Kennedy, secretary-treasurer
of the Eleventh district United Mine
Workers. William Stinson, district
vice president, who is missing, is
charged by the miners' officials with
taking the papers.

Baltimore and Ohio passenger train
No. 5, while running at a speed of 70
miles an hour was wrecked by spread-
ing rails three miles east of Sprien-
g, O. Three passengers injured.

INDIAN MASSACRE EIGHT MEN KILLED BY THE YAKUIS

**WORD SENT TO LOS ANGELES BY
COLONEL MAXSON OF THE
IRRIGATION CONGRESS.**

AMERICANS AND MEXICANS

Fall Victims of Red Men at Lanch-
o and Nearby Station Says
the Report.

(Bulletin.)
Los Angeles, Cal., Dec. 27.—An In-
dian massacre in which Yaqui In-
dians attacked a party of Americans
and Mexicans and killed eight has oc-
curred in Mexico, according to a re-
port sent by Col. H. B. Maxson, vice
president of the National Irrigation
Congress. Maxson says his train
stopped an hour at Lancho. While
there rumors were circulated to the
effect that the Yaquis were on the
warpath. The train on which Col.
Maxson and party were riding had
not been gone more than an hour
when a band of Indians descended
upon a small party of Americans and
Mexicans and butchered four of its
members, according to the report.
Station Agent Thompson and his wife
escaped by boarding a work train.

The train bearing the Maxson party
had proceeded about 15 miles
when the passengers grew alarmed at
the uprising. They returned to Lan-
cho, where they discovered the sta-
tion house had been burned and four
bodies lay beside the tracks. A short
distance away four more were found.
Four were massacred at Lancho and
four at a nearby station.

MINER HICKS IS TO GO ON STAGE

**MAN WHO WAS BURIED ALIVE
FOR FIFTEEN DAYS ACCEPTS
GOOD OFFER.**

First Exhibition at Bakersfield To-
night—Other Miners Will
Accompany Him.

Bakersfield, Cal., Dec. 27.—Miner
Hicks whose sudden rise to notoriety
through his entombment of 15 days
made him the object of many show
offers, has been engaged at a salary
of \$500 per week for one year. The
first exhibition will be given in Bak-
ersfield tonight. Harry Linville,
prominent in the rescue work, has
been engaged to act as lecturer, and
two of the miners will also be taken
along.

BIG OIL DEAL ON

San Francisco, Dec. 27.—Papers will
be signed before the end of the year
transferring oil lands valued at \$2,000-
000 in the coal fields to a London
company known as the Coaling Oil
Fields Limited. Negotiations are in
progress for the transfer of other prop-
erties worth \$1,000,000.

THREAT MADE WAS SIMPLY A BLUFF

Billings, Mont., Dec. 27.—Several
days ago the manager of the Billings
sugar factory received a threatening
letter that unless the sugar factory
gave up \$25,000 the plant would be
dynamited and blown into atoms. The
letter directed that the sugar company
place a man representing the company
on a Burlington train with a red lan-
tern who was to drop the money when
he saw a man with another red lan-
tern beside the track. The sheriff put
a posse on the train, including the
sugar company's representative, taking
with them a red lantern and a
package, but found no sign indicating
that the highwaymen had carried out
his part of the schedule.

BAD EXPLOSION AT MINERVA COAL PLANT

Minerva, O., Dec. 27.—The explosion
of a boiler at the Brewster Coal com-
pany's plant, near Waynesburg, this
morning, caused a loss of \$6,000. The
engine house was destroyed. Sixty
men changed their clothes in an ad-
joining room shortly before the ex-
plosion occurred. No one was injured.

President Roosevelt left Washing-
ton today for his vacation in Virginia.
The President and his party will re-
turn Monday.

GENERAL NEWS OF BUCKEYEDOM

MICHAEL F. RYAN GUILTY OF ELECTION FRAUDS AT CLEVELAND.

Prisoner Noss Surrenders—Governor's Wife Improves—Farmer Freezes—Boy Shot.

Cleveland, O., Dec. 27.—Michael F. Ryan, after a trial of several days, during which charges of alleged tampering with the jury caused a temporary cessation in the proceedings of the court, was found guilty of election frauds. He was convicted in the common pleas court on the charge of having checked off the names of men who did not vote at the Republican primaries two years ago. After the verdict was announced Judge Babcock inquired into the charges of alleged attempts to bribe the jurors. The court declared there was no evidence on which to base a prosecution.

Noted Woman Suffragist.

Toledo, O., Dec. 27.—Mrs. Rosa L. Segur of Toledo, pioneer woman suffragist, died at Dallas, Tex., where she had been sojourning for the benefit of her health. Mrs. Segur was 73 years of age and was closely identified with the suffragist movement ever since its inception in America. She was a close friend of Susan B. Anthony and has held many places of honor in the national and state suffragist associations. The remains will be brought to Toledo for burial.

Surrendered Himself.

Cincinnati, O., Dec. 27.—Edward Ness, who with eight other prisoners escaped from Hamilton county jail Dec. 23, surrendered himself at the jail. He said he was tired of being hunted like a wild animal and preferred to serve his sentence of 13 months in the state penitentiary. With the return of Ness to jail, four of the nine men who escaped remain to be accounted for.

Three Victims of Cold Snap.

Cincinnati, O., Dec. 27.—Three unfortunates were frozen to death in this vicinity. Miss Ellen Tevens, a spinster, 80, was found dead seated before her fireless stove in a bare room. She was frozen stiff. "Wild Bill," a character of Carthage, was found frozen to death in the stables of a dairyman, and Martin Conway, a recluse of Ham-

ilton, met a similar fate under like conditions.

Claims Self-Defense.

Akron, O., Dec. 27.—John Burgner, an American steamfitter, crushed the skull of John Kaslelic in Barberton with a piece of gas pipe, killing the man almost instantly. Burgner is held on the charge of second degree murder. He claims the act was in self-defense.

Wife of Governor Improving.

Columbus, O., Dec. 27.—Mrs. Harris, the wife of the governor, who has been ill for several days with erysipelas, is considerably improved. Governor Harris stated that while Mrs. Harris suffered considerably he did not regard her condition as at all serious.

Christened State Camp Grounds.

Columbus, O., Dec. 27.—"Camp Perry" is the name of the state camp grounds and rifle range in Ottawa county. The site which will bear the name of the hero of the great naval battle in Lake Erie in the war of 1812 is the point of land nearest the scene of the conflict. Adjutant General Critchfield sent out general orders describing the camp and announcing the name by which it will be known. It is located along the lake shore, about five miles northwest of Point Clinton. Ten miles out in Lake Erie, on Sept. 10, 1813, Commodore Oliver Hazard Perry put an end to British naval power on the Great Lakes. In the grounds belonging to the state are 234 acres.

Street Railway Deal.

Columbus, O., Dec. 27.—The Columbus Traction company was incorporated with a capital stock of \$1,000,000 to take over the lines of the Central Market company in this city. The new company will lease the property to the Columbus Railway and Light company, which will then control all the streetcar lines in Columbus.

Farmer Frozen to Death.

Upper Sandusky, O., Dec. 27.—James Boss, a well-known farmer, was found frozen and dead in the Sandusky river, near this city. His sleight was found in the river also and his horses were in a nearby field. He had been missing since Tuesday night. The cause of the accident is not known.

Skull Fractured.

Youngstown, O., Dec. 27.—Richard Williams, an iron worker, was killed by falling from a scaffolding while trying to repair a leaky water pipe. His skull was fractured. The body was unnoticed for some time, and when discovered was encased in ice, caused by the drippings from the pipe.

Victim Wanted by Police.

Canal Dover, O., Dec. 27.—Mike Be-

lata, alias Mike Delora, who died as the result of an injury received in an explosion of dynamite in a coal mine near here, was identified as a man who was wanted by the police of Stonecreek, Conn., on a charge of assault with intent to kill.

Checks Scattered Along Streets.

Dayton, O., Dec. 27.—Packages containing checks to the amount of \$10,000, which were for the employees of the Indiana, Columbus & Eastern Traction company, were lost from an express wagon here, and scattered along the streets in the city. Many were forged and cashed.

Infant Suffocated.

Upper Sandusky, O., Dec. 27.—Dorcas, the five-weeks-old daughter of John Pressler, was smothered to death. The Pressler family returned in a sleigh from a neighbor's, and on reaching home found the child dead. Its clothing was too tight to its face.

Next Head of Steel Trust.

Youngstown, O., Dec. 27.—It is rumored that Thomas McDonald, manager of the Ohio plant of the United States Steel corporation, is to be promoted to the head of the trust. Ohio plant, under McDonald's management, has paid record dividends.

While Playing.

Hamilton, O., Dec. 27.—Joseph Gardner, 10, was fatally shot with a flintlock rifle while playing. The weapon was accidentally discharged and the bullet passed through the boy's body, inflicting a wound from which he can not recover.

Girl Jumped From Car.

Bryan, O., Dec. 27.—Gerta Oberle, 13, was almost instantly killed by jumping from a Toledo & Indiana limited car while in motion a mile east of Bryan. She had taken the limited car for her home instead of a local car.

Snowstorms In England.

London, Dec. 27.—Christmas of 1906 will be memorable for the heaviest snowstorms the United Kingdom has experienced in many years. In the northern counties of England and in Scotland the snow was accompanied by great gales. There was an average fall of from four to six inches, which drifted badly.

Outlaws Drop a Marshal.

Tulsa, I. T., Dec. 27.—In a running fight near Dawson, a mining camp three miles from here, Deputy United States Marshal Strickland was shot and left for dead by two desperate outlaws. The bandits were later captured and lodged in jail. Strickland is in a local hospital in a critical condition.

KICK OF HORSE CAUSE OF DEATH

REV. G. C. McMillan OF PATASKALA DIED AT GRANT HOSPITAL IN COLUMBUS.

Many Complications Follow Accident of Seven Weeks Ago—Buried in Pataskala.

Rev. G. C. McMillan, aged 38, of Pataskala, died at Grant Hospital, in Columbus, Wednesday afternoon. Seven weeks ago he was kicked in the abdomen by a horse and nearly died of peritonitis which followed this injury.

As the inflammation subsided his general condition became worse, as it was impossible for him to retain any nourishment. He had eaten nothing for a week previous to his entering the hospital Christmas morning. As a result of this starvation he had become greatly reduced, and was taken to Columbus on a cot.

Examination showed that his intestine had grown together, with the formation of numerous abscesses. An attempt was made to relieve his condition by separating adhesions, and opening the abscesses, but he was too weak to withstand the operation and died in the afternoon.

His wife and two brothers were at the bedside when he passed away. In addition to his wife he leaves three small children.

The body was shipped to Pataskala Wednesday evening, where the funeral will be held at the church of which he was pastor.

MARTINSBURG NEWS

Ray Farmer and Miss Baird In Runaway—Martin Berger Shot in the Leg.

Martinsburg, O., Dec. 27.—On the morning of Christmas Mr. Ray Farmer and Miss Edith Baird were driving out of town when their horse became frightened and ran upon a steep bank, upsetting the buggy, throwing the occupants out. The horse freed itself from the buggy and ran a mile down the Newark road. No one was hurt.

Mr. Martin Berger while out hunt-

ing Tuesday morning with some of his friends, received four shots in the leg. Dr. Will Shrontz removed them. Miss Jamalla Toland is spending a few days with friends in Newark and Columbus.

MIKADO

Discouraging His People From Coming to the United States.

New York, Dec. 27.—A report on Japanese conditions in the Hawaiian Islands will be made to the president by Frank H. Sargent, commissioner of immigration and naturalization, as a result of his recent visit to the islands. Commissioner Sargent expressed the opinion that there are fewer Japanese in the Hawaiian Islands now than there were two years ago, a greater number having come to America in that period than arrived in Hawaii. Mikio Saito, the Japanese consul general at Honolulu, intimated to Mr. Sargent that the Japanese government discouraged its people from coming to the United States because of its knowledge of the conditions existing in this country, and it was apprehensive lest the coming here of great numbers of Japanese might induce a prejudice against them that would be embarrassing.

Japs After Cuba?

Washington, Dec. 27.—Governor Magoon at Havana cabled Secretary Taft that a Havana newspaper printed a story to the effect that the Japanese had been heard intriguing to obtain control of Cuba. Governor Magoon ridiculed the story, and Secretary Taft also characterized it as absurd and ridiculous.

Uncle Sam Has Free Seeds For the Million

Pity the poor old con-gress-man! Some work—that's what he needs. Don't snub him just because you can. But write—for garden seeds.

If you need any garden seeds or care to receive any that you don't need write a letter to your congressman. If he wants to be re-elected he will have the department of agriculture send you the package by return mail. You need not inclose postage. Your congressman has a privilege called a frank which carries garden seeds and other official matter through the mail. Just intimate to the man who represents you at Washington that you would like a selection of Uncle Sam's choice seeds, and he will do the rest. It is all very simple.

Also, say some, it is all very silly. Nevertheless the sending of seeds to constituents is one of the perquisites of members of congress. It is a perquisite so old that it almost ranks with the prerogative of a German emperor to wear his mustache at an angle of ninety degrees. The Declaration of Independence seems to have overlooked the matter of free seeds to congressional constituents, and there appears to be nothing in the constitution of the United States that requires free seed distribution, but both congressmen and constituents have held this to be one of the inalienable rights of mankind since the establishment of the practice. Any attempt to do away with the sacred privilege is considered little less than treason. The country cries for free seeds, and the congressmen responds nobly to the cry. Who shall dare arise to rob us of this time honored right?

For some years there has been a feeble effort upon the part of a congressman here and there to yank his neck out from under the galling yoke of the seed sending tyranny, but to no avail. It requires a very bold and fearless congressman to stand up and defy the free seed sentiment. Few of them care thus to make martyrs of themselves, for re-election is sweet to the man at Washington, and he knows full well that the best way to build up his political fences at home and keep them properly staked and ridged so that no other candidate can lope over and possess his pasture is to send the farmers and the town gardeners all the free seeds they ask for, and then some.

"For what do we elect a congressman?" asks the householder who is going to raise turnips in his back yard. "Is it to make laws? Nay, verily. There be too many laws already. We send a congressman to Washington that he may send us seeds from Washington. He is our seed clerk, and we pay him \$5,000 a year for his work. Of course, after hours when he is not busy sending congress if he likes and help make laws, but woe be to him who in the house of his going forth if he soldiereth on his job and refuseth to frank a package of turnip seed to us when our soul crieth for turnip seed!"

Even the congressman from the great city district is not exempt from this seed sending requirement. The man who represents a New York city district wherein there is not enough space unpaved or unoccupied by buildings to grow a hill of beans receives frequent requests for garden and field seeds. No, the tenement dwellers do not intend to grow roof gardens, nor the denizen of

the seventh floor flat a hanging garden of Babylon. These people want to send seeds to their country cousins, with whom they spend six weeks in summer on the dear old farm.

When the late Amos J. Cummings represented a New York district in congress one of his constituents, whom he knew well, astonished him by writing a supplicating request for garden seeds. Mr. Cummings knew positively that the man had no more knowledge of agriculture than a London chimney sweep. He wrote back:

"What on earth do you want with garden seeds?"

"Dear Amos," wrote the friend in reply, "I want to plant those seeds in Madison Square Garden."

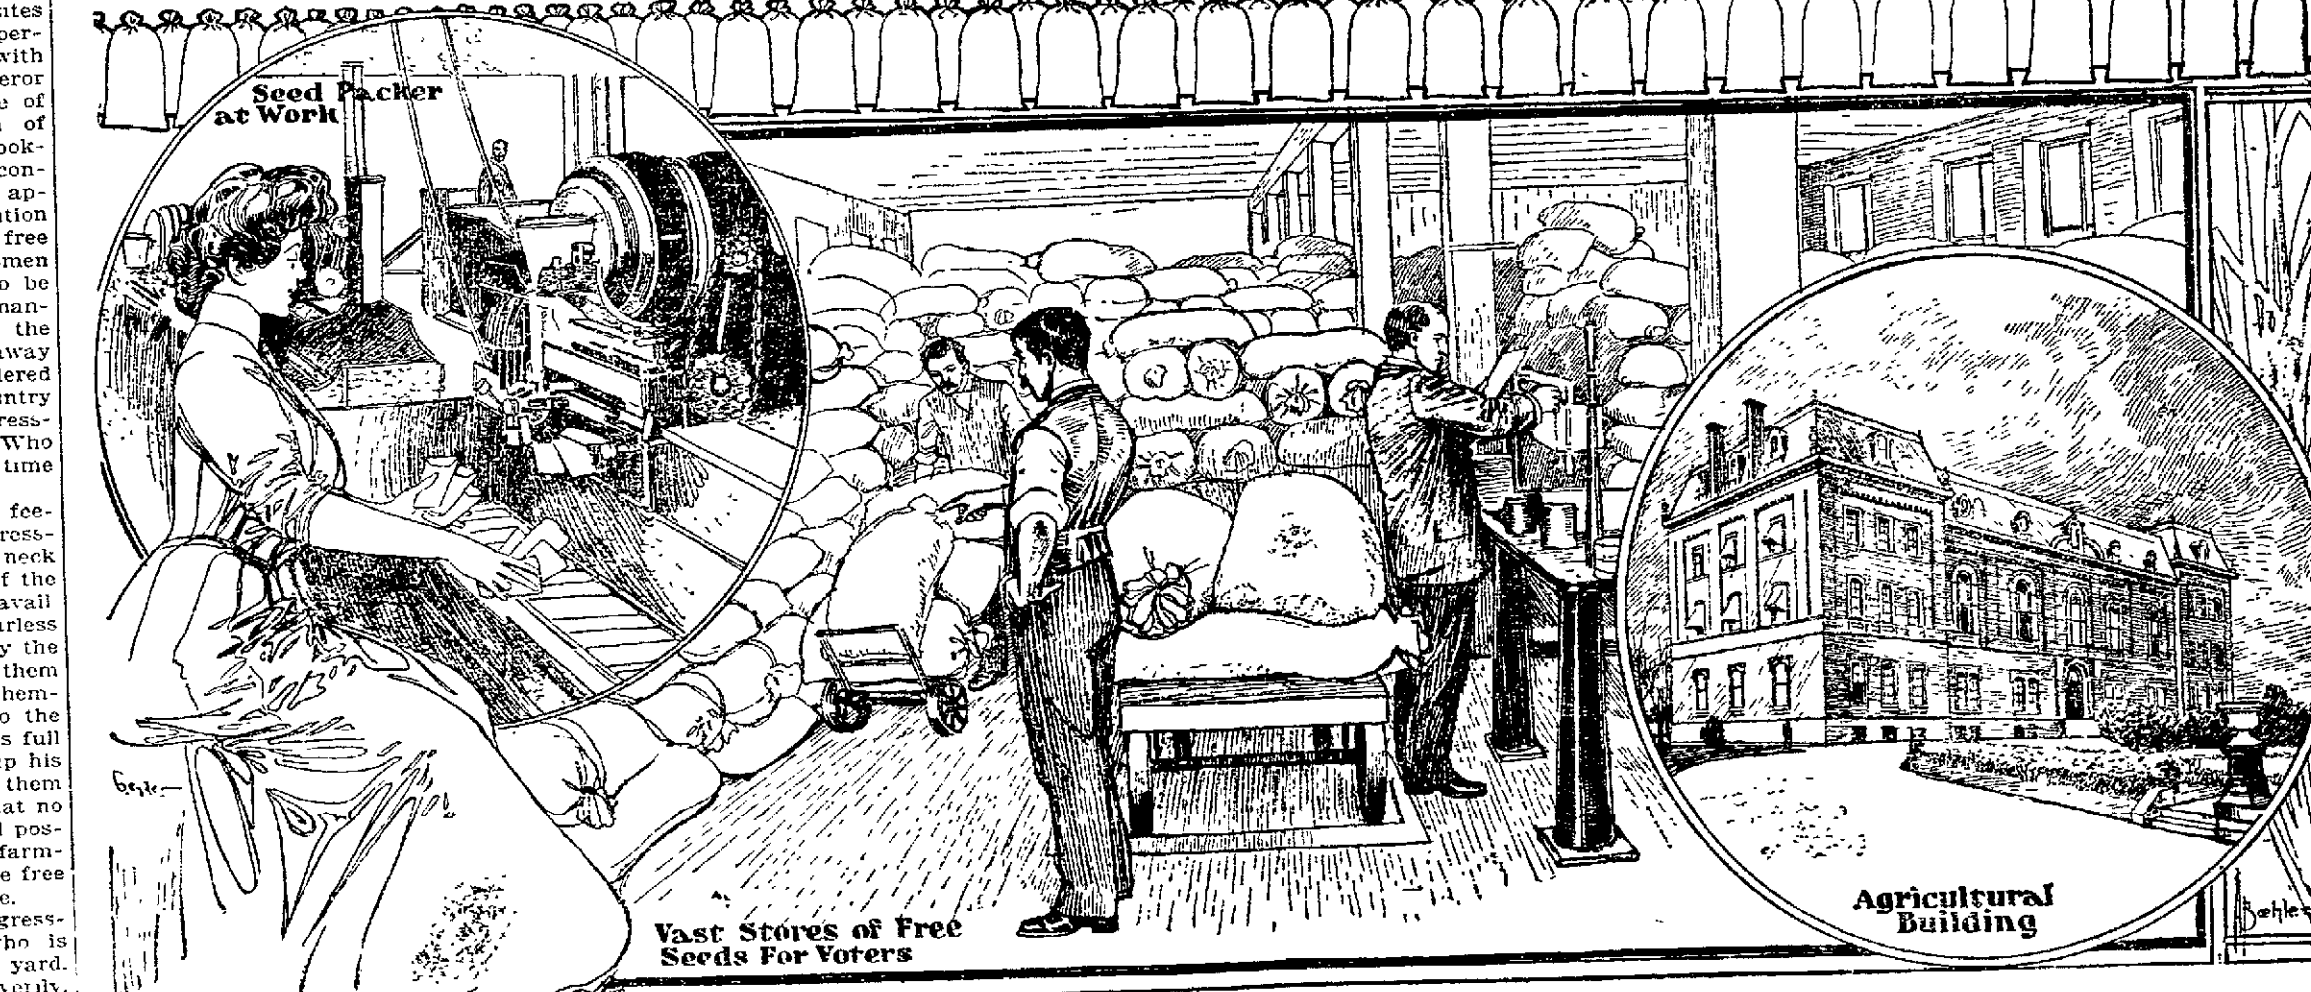

Champ Clark of Pike county, Mo., who represents one of the most highly

a cook stove. I want to see if I can't get them to co-operate with me and raise a few loaves of bread."

The free seed industry, which began in a small way, has grown to huge proportions. In the early days the congressmen carried packages of seeds around in their coat tail pockets, mailing them out on demand. The gentleman from Indiana or Arkansas was not true to his trust (the seed trust) unless he was able to rattle pumpkins, parsnips and peas in embryo when he lifted his coat tails to take his seat in the house of representatives. Now that many congressmen have adopted the sack coat, minus tail pockets, this system of cold storage is not feasible. Consequently six years ago the seed section of the public service was put under the control of the bureau of

the Harlem goat prefers cauliflower, and he feels that the cause of science is badly served when the gentleman from Nebraska sends prairie grass seed to a region where prairie grass already chokes out the corn crop, and what the farmer really needs is a hoe.

Scientifically applied, the seed sending industry is highly beneficial to our agricultural interests. For instance, there is the macaroni wheat, introduced by the department of agriculture from Europe. Some of the semiarid sections of the west are not suitable for growing the ordinary wheat. Macaroni wheat thrives there, and enormous acreages have been planted and successfully grown. Macaroni wheat should be pointed out, is not intended exclusively or particularly for Italian citizens. It makes biscuits deli-

developed farming districts in the department of United States, with a considerable coast line on the Mississippi river, received a letter from a constituent in one of the river towns. The man wanted some water lily seeds. Mr. Clark replied that the department of agriculture had made no provision for water lily seeds.

"I am very sorry," wrote the constituent. "You know the Mississippi is a part of my front yard, and as it gets pretty muddy sometimes I want to plant it with water lilies to improve the appearance of the waterscape."

It is related of Congressman Victor Murdock of Kansas that a constituent wrote him to this effect:

"Dear Vic—Please send me by return mail a bushel or two of wheat seed. My uncle has a flour mill and my wife

is conceded that the results are worth the expenditure. For 1906 the appropriation for securing and distributing seeds and plants amounted to \$242,920. Postmaster General Cortelyou estimated that about 7,300,000 packages of seeds are distributed annually under congressional frank. This is about 690,000 pounds. The packages aggregate from thirty to thirty-five carloads a year. That would make up a pretty long freight train if shipped by freight. Uncle Sam cheerfully carries it by mail, however, at a cost of about 5 cents a pound, or \$34,500 a year altogether.

Most of the congressmen have built up machines at home to insure their reelection. The department of agriculture is also in the machine business. It has seventeen machines for making ladies. Those of the fair Spaniard, however, are often spoiled by coarse fingers rounded at the tip. Russians have long, but beautifully formed hands. The hands of Englishwomen of rank are aristocratically shaped, but they are long and sometimes too big. The French grande dame takes the best care of her hands all the world over. Germans are generally endowed with large and flat ones, with enormous fingers.

SHAVING BABY'S HEAD.

Life has exceptional difficulties for the babies of Arabia, especially for those who are of sufficiently high rank to be brought up according to all the ancient customs of their race. A royal baby's first toilet there consists in winding a bandage about its body, after it has been carefully bathed and perfumed.

If the child be a girl, on the seventh day after her birth, holes, usually six in number, are pricked in her ears, and when she is two months old heavy gold rings are attached to them, to be worn throughout her lifetime, except during periods of mourning for relatives. On the fortieth day the baby's head is shaved, and the disposal of the hair is regarded as a very weighty matter. It must not be burned or carelessly thrown away, but buried, thrown into the sea or hidden away.

The fortieth day marks a turning point in the child's life. Heretofore it has only been seen by few, but now it may be seen by anybody and is regarded as fairly launched on the tide of existence. Several charms are attached to its body for protection against the "evil eye." Everything the child uses is perfumed and covered at night with jasmine, and before it is used fumigated with amber and musk and sprinkled with attar of roses.

RECOVERED FROM THE SEA.

At Nishima, in Japan, there is a wonderful castle possessing a gold lined well, which affords the garrison an abundant water supply. Not only does gold line the well, but it is also fashioned into two great golden dolphins which glitter on the castle roof. These dolphins are centuries old, and one of them was once taken down and sent for exhibition to Vienna as a rare example of antique Japanese craftsmanship. The fate of Cleopatra's needle befell the dolphin, as the ship on which it was sunk, and the ornament remained for many years at the bottom of the sea. Numerous attempts were made to raise it, and at last one was successful, and the golden dolphin was reinstated in its original place, never (it is to be presumed) to leave it again.

Children Face Many Dangers

The Work and Worry and Close Con-
finement of Their School Days and
How They Can Be Safe-guarded

To thousands of boys and girls the
confinement of the schoolroom and the
duties imposed by their studies are a
strain, a very serious strain. Many
become broken in health by this strain
and are physically weakened for life.
Give your boys and girls good,
healthful, pure, strengthening food
and you go far toward removing all
dangers.

Malta-Vita, the crisp, delicious,
whole wheat food, contains every food
element necessary to the maintenance
of the human body and mind. It is
especially beneficial for children.
"Malta-Vita" is no meaningless
coined word. It stands for its literal
translation from the Latin and means
"exactly what it is, 'vital life'." The
original phrase "For the blood is the
life" is the starting point and final
winning post of Malta-Vita, on account
of its purifying action on the blood,
and its natural sweetening agent,
malt sugar, is easily and readily as-
similated by the human economy, forming
rich, healthy blood.

Malta-Vita is so good to eat—not
at all like the tasteless variety of

Is Seriously Ill.
Mr. William Jones, who has been
seriously ill at the residence of Mr.
George A. Evans, in the Sharon Val-
ley, about four miles from Newark,
is reported as still being in a very
serious condition.

Pleaded Not Guilty.
On an affidavit filed by Ben Mosca,
Joe Cateracchini, keeper of a board-
ing house was arrested Thursday for
threatening to wound. Mosca says
the man drew a knife. The defend-
ant pleaded not guilty and will get a
hearing later.

Horse Wandered Away.
A young man attending a party
on Spring street reported to the po-
lice that his rig was stolen from in
front of the home of his host. The
rig was found later and it developed
that the horse became untied and
wandered away.

Knights of Security.
The meeting of the Knights and
Ladies of Security which was to have
been held at the undertaking rooms
of Long & McCament, 29 North
Fourth street, next Monday evening,
will be held in the A. O. U. W. hall.
A smoker will follow the business
session.

All Were Remembered.
All the clerks and employees of the
Licking County Bank received a nice
letter on Christmas morning, com-
plimenting them for their fidelity and
zeal in the interest of the institution
during the past year. Accompanying
each letter was a bank note for a lib-
eral amount.

Newark Knights Templar.
Twenty-eight officers and members
of the local Knights Templar Com-
mandery went to Coshocton Wednes-
day night, where they assisted the
new commandery of that city in con-
ferring the Order of the Temple on
several candidates. A banquet fol-
lowed the work.

Lodge Notes.
The Modern Woodmen removed
from their old location in the A. I.
U. hall to their new quarters in the

Extensive preparations are now go-
ing on for the big team race between
the Buckeye Lake Gun club and the
10 man team of the Columbus Gun
club. The meet will be held at the
Columbus Gun club on the afternoon
of December 29. Shooting will begin
at 1 p. m. and the team race will
commence at 2:30.

Wm. Bergin is Sick.
Officer Patrick Carroll went to the
home of Wm. Bergin, the Walnut
street saloonist charged with Sunday
selling, to serve a warrant on the
man, but found him seriously ill in
bed. The service of the warrant was
delayed. Mr. Bergin promised that
he would report at the mayor's court
as soon as he was able to walk.

Mr. Hill Retires.
Mr. James J. Hill of Johnstown,
has severed his connection with the
National Harvester company, to take
effect with the end of the present
year. Mr. Hill began work as gen-
eral collector with the McCormick
Harvester company, 11 years ago,
afterwards going to the National
company, and has been engaged con-
tinuously with the two companies all
that time. Throughout this entire
period he has given the best satisfac-
tion and has collected thousands of
dollars and the company was very
reluctant to let him go; but Mr. Hill
was getting tired of the road and ex-
pects to settle down to some kind of
business at his home in Johnstown.

AWFUL AGONY OF PILES

Positively Relieved by The Pyramid
Pile Cure.

A TRIAL PACKAGE MAILED FREE

There is no reason—surely no good
reason—why any man or woman
should continue to suffer with piles
when a reputable company of druggists
have placed in every high-grade phar-
macy a positive and unfailing cure for
this dread disease at a price within the
reach of the poorest. They have done
more. They offer to relieve the suffer-
er temporarily and start him well
on the way to recovery, by giving to
any piles patient who sends his name
and address, a free trial package of
the wonderful Pyramid Pile Cure in a
plain sealed wrapper. There are
enough of the curative elements in
this trial package to greatly reduce the
swelling of the affected part, to heal

much of the soreness and ulceration.
After the sample is gone your druggist
will supply you with a box of the
Pyramids for 50 cents.

Read Mrs. Bond's letter, which tells
how she suffered and was relieved, it
not positively cured, after using one
50 cent box.

"I have tried your pile cure and
find them all you recommend them. I
am very thankful to you for ever put-
ting them within my reach, for I have
had one box and I have not used all
of them yet, and I feel like a new wo-
man today, and I tell everybody about
them. When I started them I could
not walk across the floor, but now I
can do my work all right. My work
was a burden to me before I started
them, but I can tell you that I can
work much better now. You can rely
on me. I will tell everybody about
Pyramid Pile Cure. Yours sincerely,
Mrs. J. Bond, Toronto, Canada, 33
Pears avenue."

There is positively no risk or dan-
ger with the Pyramid Pile Cure, for
there is nothing but curatives in the
preparation. They are suppositories
which placed in the affected part, act
as a soothing ointment working upon
the infected and ulcerous tissues, giv-
ing new life and stimulating a strong-
er circulation of the blood.

By the use of the Pyramid Pile Cure
the patient is cured at home without
losing a day's work, no matter what
his occupation. The cure may be ac-
complished in absolute privacy. We
use no names for advertising purposes
without the voluntary consent of the

SINGERS VISITED 33 HOMES.

Christmas morning was brightened
for many of the sick as they listened
to the beautiful carols sung by a band
of Christian Endeavorers of the First
Presbyterian church. The singers
started at 1:30 in Bowers & Criss
large hack and visited 33 homes of
the sick and aged of the church.
Their voices rang in clear harmony
on the cold morning air as they sang
"Joy to the World," "Calm on the
Lisening Ear of Nights," and "Holy
Night." They were kindly received
in almost every instance, and their
efforts to make a Merry Christmas
to the sick were appreciated. At
5:30 they visited the Orphans' Home,
where they were cordially welcomed
by Super. and Mrs. Krug and a
sumptuous breakfast was served for
them. At 7 o'clock they repaired to
their respective homes, and of pay-
ing the opportunity to brighten the
Christmas for the shut-ins. The sing-
ers were Miss Maudie Bots, Mrs. Gid-
don Lippman, Mrs. Franklin Horner,
Misses W. E. Panton, Gladon Lip-
man, H. H. Lister and Rollin F.
Wardman.

1571—Johann Kepler, famous astronomer, born at Magstadt, Wurttemberg; died 1630.
1585—Sir Francis Drake, English naval hero, died. Drake received a commission from the queen and cruised with success against the Spaniards in the West Indies. In 1572 he sailed forth with two ships to devastate Spanish settlements in America. He returned to England bearing great prizes. In honor of the achievement the queen dined on board his ship, knighted him and made him commander of a fleet sent to "sing the king of Spain's lullaby." He destroyed two vessels in the harbor of Cadix. As vice admiral he helped defeat the Spanish armada in 1588.

THE CITY WATER WORKS BOND PROPOSITION

The people of Newark voted down a proposition a year ago for an additional water works bond issue of \$200,000. Subsequent to that decision of the people, the Advocate discussed the water works situation in a series of articles.

On the 15th of January, 1906, the Advocate published a lengthy editorial article on the subject, discussing its various phases, and drew the conclusion after reciting all the facts with a careful presentation of the situation, that for the city to build a \$600,000 plant while another plant is in existence to divide the patronage from consumers, is not a good business proposition.

The facts and figures presented in that article showed that with the annual interest charge of \$27,000 on a \$600,000 bond issue and the limited number of water consumers caused by the division of the patronage with another water company, THE CITY'S PLANT WOULD NOT PAY RUNNING EXPENSES.

Since that time nothing has developed, no arguments, facts or figures have been offered from any source whatever, that successfully controvert that conclusion. Certainly the figures given by President Christian of the Board of Service in his published statement do not disprove it.

True, he pears down the total cost in his estimate of the proposed city plant a few thousand under \$600,000, and figures the annual interest charge at \$24,500, but the trifling reduction presented in these figures by no means controverts the position that the city plant will not be a paying business enterprise with the limited patronage in the way of consumers.

Regarding Mr. Christian's claims and his figures in his published estimate of the cost of the proposed city plant, there is scarcely a man in Newark who has given the subject careful thought and investigation who does not believe that the plant will cost many thousands of dollars more than \$600,000 before it is finished.

The voters of the 17th Congressional district must naturally have a pretty vivid recollection of those cards which were distributed broadcast by candidate Martin Luther Smyser showing the loud profession he was making of "standing by President Roosevelt." These voters can now readily see how quickly Martin Luther throws off the mask when he gets back to Washington. He could not wait for a chance to rise in his seat in the House to express his opposition to Roosevelt's action in the dismissal of the rioting negro soldiers, but rushes into a newspaper interview to condemn the President.

Ment. This is the difference between Smyser's profession and his practice.

If a \$200,000 additional water works bond issue was defeated by the people for good reasons a year ago, why should the greater sum of \$250,000 be voted for now?

Still the Advocate has not been offered for publication an explanation that explains why this \$250,000 bond issue was not submitted to the people at the general election, when all the people would have had an opportunity to vote.

ANOTHER CARD

From the Board of Service Replying to "Independent Voter"—But Does It Explain?

Editor Advocate:—In reply to Independent Voter in Monday's Advocate, we would say that the officials most interested in the water works question are the Board of Public Service. We desire a full expression of the voters and request every one to vote on December 31.

Our report to the Council on October 1st last, in part reads: "The necessary funds for which can be obtained only through the consent of the qualified electors. To secure the fullest expression of the VOICE OF THE PEOPLE, it should be held at the next general election, and further it saves the cost of a special election." &c., &c.

Now, this was not accomplished, and to wait until it could be held at a general election would delay to November 1907, thus the work could not possibly commence until spring of 1908, and would not be completed before the fall of 1908.

We can see the necessity of not further delaying the work, and that the plant should be completed as soon as possible. This is the position we take, but nevertheless are willing to learn anything and everything that is of benefit to the citizens of Newark: we therefore ask the question, What are the benefits to be derived by all the people, in defeating the proposition on December 31? Yours,

The Board of Public Service.

NAVY'S CHIEF, WHO URGES NEED OF STRONG FLEET.

Admiral George Dewey
From the portrait by D.W. Murphy

Washington, Dec. 27.—Admiral Dewey, the recognized practical authority in America on sea power and the needs of the United States navy, was asked to explain his reasons for advocating a reasonable but steady increase of the battle strength of the fleet. This question was asked:

"Would the adoption of the policy of providing only one battleship for an entire Congress result in an actual increased navy or in a virtual decrease in fighting strength?"

"Such a policy would be retrograde in its character," replied Admiral Dewey. "It would not take up the waste or supply the places of the ships that are bound to deteriorate and which should be placed out of commission. We have three battleships which were fine ships in their day, but they were laid down in 1891, about sixteen years ago. They are

J. R. HARRIGAN GOES TO BUFFALO TO MANAGE 300 MILE ELECTRIC LINE RUNNING FROM BUFFALO TO ERIE

The Advocate has a special from Canton, Ohio, Thursday, saying that Mr. J. R. Harrigan, former general manager of the Newark traction lines and until recently general manager of the Canton & Akron electric railway, will on January 1 leave for Buffalo to take charge of the Buffalo & Erie traction company.

This line when completed will have 300 miles of track and will connect Buffalo and Erie, besides having various branches. The line will be double tracked with 80 pound rails, and built on a private right of way. It includes the Erie city lines and entrance into the center of Buffalo, a line to Hamburg from the limits of Buffalo, a steam road from Jamestown and several small lines which have been consolidated into one large system.

The Advocate's message further says that Mrs. Harrigan and family will visit Newark about January 15, for two or three weeks before going to Buffalo. Mr. Harrigan's Buffalo address after January 1 will be Elliott Square Building, in care of the Buffalo & Lake Erie Traction company.

CHURCH OF CHRIST

Christmas Program Thursday Evening—Free Will Offering for the City Poor.

The Central Church of Christ Bible school will give a Christmas program Thursday evening, at 7:15. At the close of the exercises there will be a "Christmas Giving" in which every person who desires may have some part by giving something to the poor. It is suggested that each person would bring a potato, more if he chooses, to give at the door, and all who feel able are requested to bring one article of food or clothing to be distributed by a committee to those in need. A free will offering will be open to those who prefer to give money. Classes are asked to occupy their usual places for opening service, and will be called separately for their gifts. In closing part everything brought will be arranged on platform, so all present can see the result. A cordial invitation to all interested. The program follows:

LETTER COMES FROM CHAS. KOCHENDORFER

On Christmas day L. B. Munch received a letter from Mr. C. F. Kochendorfer of Glendora, Calif., wishing all of his old friends in Newark a Merry Christmas and a Happy New Year. Mr. Kochendorfer refers to the sky-scraper as follows: "It is certainly a credit to the town, and I can picture in my mind the average Newarkite as he piloted his visiting friends about town; stop in the middle of the street in front of this wonderful piece of modern architecture and with the top of his head at a right angle with the top of his spinal column and the tip of his nose on an imaginary line running perpendicularly to the caustic places on the back end of his heels, exultantly point out to his friends the exact spot where 'the top of our sky-

TREATMENT SUCCESSFUL.

The Madding Disease, Rheumatism Easily Cured With Uric-O.

It might interest Rheumatic sufferers of this country to learn the wonderful work that Uric-O is doing towards the relief and cure of this dreaded disease. Letters of praise are received daily from men and women who have used the remedy with the greatest success. The manufacturers of this wonderful Specific have never solicited a testimonial or a word of praise from people who have used the remedy. Let, letters like the one given below are being received from both old and young:

Mr. Reuben Whipple grocery clerk of Glens Falls, N. Y., says—"I was laid up with severe form of Rheumatism, and was confined to my room for nine weeks. A sample bottle of Uric-O, and one regular bottle has worked a wonderful change in me. It has entirely cured my Rheumatism, and I am now able to go about my work again. I recommended the remedy to Mr. John Harris, of East Lake George, who was unable to walk. He had taken every possible treatment, had spent hundreds of dollars, and had found no relief. He is taking Uric-O, and is improving rapidly and able to be out around. I will continue to recommend Uric-O, as it is certainly a merited remedy.

Uric-O is sold by Druggists generally at \$1.00 per bottle, or it will be sent by the SMITH DRUG COMPANY of SYRACUSE, N. Y., upon receipt of price. Liberal size samples and circulars will be mailed free to all who apply for same.

Uric-O is sold and recommended in Newark by Frank D. Hall, North Side Square.

MOTOR BOATS READY FOR LONG OPEN SEA TRIP

The third and fourth of the motor boats built by Lewis Nixon and sent to Santo Domingo have about reached their destination. These boats represent an object lesson in motor boat designing, and a photograph taken of them at the time they were ready to start on their long open sea trip is reproduced here. The four boats built were similar in all essential details. They are 75 feet long, 10 feet beam and only 3 feet draught. They are driven by 60-horse power Standard engines, developing a speed of 13 knots. The run of these boats to Charleston, slightly less than the distance to Bermuda, was made in three days in a gale and beam sea.

AMUSEMENTS

OLD HOMESTEAD TONIGHT.

Denman Thompson's charming play, "The Old Homestead," will be at the Auditorium tonight. There are many reasons why "The Old Homestead" has been so successful for 21 years. One of the most important of them is that the characters are drawn from real life. When the history of the American drama comes to be written no play will occupy a more conspicuous page in its annals than this unique creation of the brain of Denman Thompson.

MY WIFE'S FAMILY.

The attraction at the Auditorium Friday matinee and night, will be one of the most unique of the season, "My Wife's Family," a musical farce comedy by two of the most recent and successful producers, Stephens and Lipton. It is tinged on the mother-in-law proposition, but new twists are given to the situations and new ideas are introduced into the comedy so that the old familiar theme seems entirely new.

FIELD'S MINSTRELS.

Press: Eldridge, who recently returned from a successful European tour to join the forces of the Al G. Field minstrels, is possessed of what is believed to be the most expensive theatrical trunk in the world. Mr. Eldridge has crossed the Atlantic 26 times. Each summer for the past 13 years Mr. Eldridge has appeared in the European vaudeville houses and during his visits abroad made annual pleasure trips through European countries. On each occasion he has visited all the notable resorts of the old world. He stopped at the historic hostels in all of them, and at every hotel an enterprising attendant would paste a hotel label onto his

trunk, a custom that is popular in foreign climes. His trunk has the appearance of a billboard covered with many attractive varied colored one sheets.

The trunk, which is believed to be the most expensive in the world has a lining that cost \$112. The inside lining of the trunk is of Louisiana lottery tickets, purchased by Mr. Eldridge at \$1 each. There are 112 lottery tickets in all and they bear dates from 1880 to the time when the lottery was "put out of business."

Although Mr. Eldridge has crossed the ocean 26 times, experiencing many rough trips, he says he was never seasick but once and that illness occurred while he was making a trip on Lake Erie from Buffalo to Cleveland. Eldridge comes to Newark Saturday, December 26, with the Field Greater Minstrels. Auditorium matinee and night.

ORPHIUM THEATER.

This week's bill at the Orphium measures up to any one yet presented. Mile. Carrino's educated black bears, Nip and Tuck are the chief feature. It is a wild animal act out of the ordinary. The bears are well trained as they seem endowed with almost human intelligence. Mills and Lewis, German comedians, were well received. Leonard and Bastedo sketch artists, are very clever performers and pleased greatly. Jimmie Rose, the man with the funny noise, kept the audience in an uproar of laughter. The illustrated song was well rendered and very pretty, and the motion pictures entertaining.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manfell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. City Drug Store, Special Agent.

RAILWAY NEWS LOCAL AND GENERAL

SOUTHERN PACIFIC OFFICIALS SAY THEIR TRAINS ARE MOVING IN TEXAS.

Peonage Charges—Maniac Ran the Switch Yards—B. & O. Improvements in Newark.

San Antonio, Tex., Dec. 27.—Southern Pacific officials claim that the Brotherhood of Firemen's strike on this division of the Sunset system is broken; that all freight and passenger trains are moving along with full crews; that they have more firemen than they have engineers. A striking fireman was arrested here for entering an engineer's cab at the Sunset depot.

In view of the operation of trains Traffic Manager C. K. Dunlap has issued notices to all points to accept both local and through freight for transportation over the lines of the company.

At Lobo, near El Paso, Engineer Kutz is reported to have been assaulted by Brakeman Binger and so severely injured that he could not continue the run.

H. E. Willis, assistant grand chief of the Brotherhood of Locomotive Engineers, says that his organization is thoroughly satisfied with the situation, and all its members are going to do all in their power to maintain their contract with the railroad company and keep the trains moving.

Joseph Bedford, chairman of the grievance committee of the firemen, in a statement says that the firemen have assurances of the support of the Brotherhood of Railway Trainmen, the Order of Railway Conductors and the Order of Railway Telegraphers. These orders are in full sympathy, the statement declares, with the firemen.

To File Peonage Charges.

Houston, Tex., Dec. 27.—Vice Grand Master Shea of the Brotherhood of Locomotive Firemen announced that he would lay before Commissioner of Labor Neill, who is due to arrive here from Washington today, charges of peonage against the Southern Pacific railroad, that company having compelled negroes to serve as firemen against their will. Southern Pacific officials declare that trains are being operated on schedule time. Reports of congestion reach Houston from a number of points along the Atlantic division of the system.

Maniac Ran Switch Yards.

Chicago, Dec. 27.—For six hours a

maniac ran the switch yards at Cavanaugh, Ind., a junction point near Hammond, where the Lake Shore tracks cross those of the Elgin, Joliet & Eastern railroad. He gained possession of the tower house flagged every train that came along, and with a coupling pin put to flight every train crew that made a protest. Before the man could be dislodged it was necessary to send a special train from Hammond with a score of deputy sheriffs, who overpowered the maniac and brought him to Hammond.

Big Four Employees Get Raise.

Columbus, O., Dec. 27.—Following the increase of 8 per cent granted the engineers of the Big Four railroad last week, General Manager Van Winkle announced an increase for firemen, conductors and trainmen which averages from 6 to 9 1/2 per cent. This announcement followed a conference of several days between representatives of the employees and the general manager.

Demand of Mexican Conductors.

El Paso, Tex., Dec. 27.—The Mexican Central conductors are voting on the matter of a union strike. They now get from \$110 to \$125 per month gold. The increase asked amounts to about 15 per cent. They are voting now to determine whether they will refuse to work if the increase is finally refused. If the vote carries they will simply resign, effective Jan. 1. A strike is a serious matter in this country and they will not attempt it, but the result will be the same.

Newark B. & O. Improvements.

The first of the year will witness a number of marked improvements in the local quarters of the B. & O. railway. The new roundhouse is being hurried on to completion. Twelve of the 25 sections have already been enclosed and are ready for use. The remainder of the old structure has been entirely removed and its place is taken by the frame work of the new.

In the power plant, the foundation for the new generator has been placed and is now ready for the installation of the generator which will probably be in operation by the latter part of February.

The upper and lower machine shops, the foundry, the boiler shop and the blacksmith shop, which have heretofore been run by steam engine power, will have motors installed and all power will be furnished by this means.

A list of 10 Newark B. & O. engineers is on file at the round house office. A number of these have been examined in all but one or two subjects and are running. Some who failed will be given a later examination.

Neal Smith of the B. & O. time-keeper's office, returned Thursday from Ft. Wayne, Ind., where he has been spending a part of the holidays.

The Story of a Mayor and a Political Boss

It is Delphin M. Delmas, the eminent legal wit who was chosen to defend Harry Kendall Thaw, who is responsible for the suggestion that Eugene E. Schmitz, the musician mayor of San Francisco, is a second edition of Nero. Of course it was a mere verbal inspiration born in the tumult of a heated political campaign, but it tickled the popular ear, and the comparison has been enlarging ever since.

"And now that this once fond idol of the common people has fallen there are thousands of his former supporters who accept the Nero likeness and all that it implies. The comparison is not so fantastic as might be supposed, declare those who are pressing the charges of extortion against the official who has been indicted by the grand jury on five counts.

Nero was a poetaster. No well conditioned historian has denied that fact. He was suspected also of being a violinist, or at least a fiddler. Schmitz was the leader of an orchestra, and a very good one, it is said. The royal degenerate composed odes which his fawning courtiers declared to be models of poetic elegance. Schmitz did not descend to that depth of infamy, but he wore a Grecian whiskers and courted the favor of the vox populi.

Again, as the sermonizer says, Rome had a confagration which was almost annihilating, and there is a tradition that while it was hottest Nero kept on reciting verses of his own composition and that at the very moment when the Circus Maximus collapsed he actually fiddled. Perhaps there was some shadow of excuse for the emperor. Sated with the blood of the martyrs, he felt the need of a new sensation.

San Francisco also had an epoch making fire. No one holds Mayor Schmitz responsible for that or for the earthquake which preceded it. Neither is there any positive evidence that he fiddled while the awful destruction was in progress. He did go away to Europe, however, and there are ugly charges of extortion which he must disprove if he can.

The revelations concerning the alleged conduct of Mayor Schmitz and his fidus Achates, Abraham Ruef, have aroused a whirlwind of disgust and indignation as well as a good deal of amazement. First came the charge that \$1,000,000 sent by warm hearted sympathizers to the earthquake and fire victims had contributed to a heartless system of graft. This was a matter in which the entire nation was interested. Popular indignation became so strong that an investigation was ordered, and President Roosevelt declared that it must be exhaustive.

That the revelations promise to be astounding, involving some of those who were prominent in distributing money and supplies to the dazed and homeless population of the stricken city, does not enter into the present discussion.

The specific charges against Schmitz and Ruef allege a deliberate stand and

up. But not for long. One by one they were opened again, and it was not long until the nefarious traffic was in full swing. Some of the newspapers of the state charged openly that a fund amounting to many thousands of dollars had been collected and that this money had found its way into official hands with the design of lifting the

city. When he was nominated first, in 1901, he did not seem to have the ghost of a show. The political know it alls of both the great parties never considered his candidacy from a serious standpoint, and he was the subject of more campaign pleasantry than is usual. Yet he was successful by an overwhelming plurality. He is of humble origin, his father having been a poor street musician, a member of an itinerant German band, and his mother an Irish house servant.

So it was that the mayor came naturally by his musical ability. He rose from the most unpromising beginning to be musical director at one of the leading theaters of San Francisco. At the time of his nomination he was president of the Musicians' union, and he is still at the head of that organization. It is not true, however, that he went straight from his fiddle to the mayor's chair. He had long been a man of affairs on the coast and had accumulated considerable property. He was an excellent speaker and had achieved a good reputation as an orator in labor circles. It was perfectly natural that when it was decided to run an independent candidate the labor forces should have fixed upon him as their leader.

Mayor Schmitz is acknowledged to be one of the finest physical specimens on the Pacific coast, that region of masculine bodily perfection. He is tall, athletic in appearance and carries himself superbly. With a distinction of manner that makes him a marked man wherever he goes he might be mistaken for one who had been born to the purple. He is also a man of considerable education, having prepared himself for the practice of medicine, from which career he was diverted by the possibilities of the Klondike.

Even more interesting, however, is Abraham Ruef, holding no office whatever, but believed popularly to be the real ruler of San Francisco. He it was who organized the party which has kept Schmitz in office and who has dictated appointments, furnished vetoes, composed messages and performed all sorts of executive acts. Everybody has looked on him as the boss, and he has manifested little disposition to deny the fact.

Having secured control of the executive power, Ruef proceeded to realize from his successful speculation. He is one of the keenest lawyers in the country, and it was mere child's play for him to transform the executive department of the Golden Gate City into a machine would yield him a certain and continuous profit. The public sentiment against the notorious "French restaurants" gave him his first great opportunity. He is reputed to have done everything in his power to stir up a vigorous opposition to the evil, to have written inflammatory articles for the daily press and to have furnished ministers of all denominations with material for their pulpit crusade. It culminated in the order that closed the doors of all of these dens of infamy.

Then it was that Ruef revealed him-

self in his true colors. It was not long before every proprietor of these infamous resorts knew that if he would reopen he must first "see" Abe Ruef. The few who were so shortsighted as to neglect this precaution were undeceived with a promptness that opened their eyes. It was made evident that those whose licenses had been revoked were powerless until they had secured the legal aid of Ruef. He accepted their money as retainer fees, being particular to give receipts therefor in which the term "for legal services"

matters to a crisis. Schmitz went to Germany with the avowed purpose of seeing for himself how it was that the insurance companies were so slow in adjudicating the claims of the fire sufferers. Ruef, the brains of the administration, was left in control of the city.

Then the fight began. The acting mayor and the eighteen supervisors were entirely under the spell of the wily and energetic little boss. District Attorney Langdon, who had been elected on the Schmitz ticket, turned out to

features of the municipal crookedness. Ruef was alarmed, but by no means beaten. He was too bright a lawyer not to realize that his position was exceedingly precarious, but he had been the boss of San Francisco too long to yield without a fight. He knew that the energetic Heney and the United States secret service man had secured evidence that would result in his indictment by the grand jury, and he determined to prevent such an outcome if possible. To that end he prevailed on the subservient acting mayor to remove District Attorney Langdon, and to appoint him to the office. This was actually done, and Ruef, with an audacity that has never been exceeded in legal history, became his own prosecutor.

The court to which an appeal was taken decided that the removal of Langdon was illegal and that Ruef's appointment was invalid.

A FAMOUS SINGER.

Mme. Melba, the famous prima donna, is of Scottish parentage on the father's side, while on the maternal side she can boast of Spanish forbears. There are many people in Melbourne who remember the sweet notes of little Nellie Mitchell and recall their prophecies of her future greatness. To the clever child music was second nature, and when her great talent was realized she received training in Paris under Mme. Marchesi. Mme. Melba made her debut nearly twenty years ago in Brussels as Glida in "Rigoletto" and her first appearance in London as Lucia. Since those days the charming diva has gained the encomiums of the world, singing before kings and emperors, and entrancing all those fortunate enough to hear her golden notes. It is a fact too well known to need repetition that Mme. Melba adopted her name from Melbourne, the city of her birth. During the opera season in London Mme. Melba rents Coombe cottage, a charming place some miles out of town.

ENGLAND AND NORWAY.

Very few people are aware that the Orkney and Shetland Isles belong, strictly speaking, to Norway. Toward the end of the fifteenth century King Christian of Norway pledged these islands to King James III. of Scotland for the payment of the dowry of his daughter Margaret, who became queen of Scotland. The pledge has never been redeemed.

Queen Maud is not the first British princess to figure on the throne of an independent Norway. Philippa, daughter of Henry IV., became the wife of Erik, one of the Scandinavian union kings. She was married in London by proxy, on Nov. 28, 1405, and on the same day, 500 years after, King Edward VII.'s youngest daughter entered Norway as its queen.

Another English princess who became queen of Norway was the daughter of King Canute, sister of King III and consort of King VII, who died in 1775.

Newark Interurban Will Start New Schedule Between Columbus and Zanesville, Jan. 1.

Arrangements are being made whereby a fast service is to be placed on the Indiana, Columbus and Eastern road in a few days, possibly on January 1st. The car will make a double round trip between Columbus and Zanesville each day, and the fare will be the same as on the regular cars. A trial trip was made a few days ago from Columbus to Zanesville, the run being made in one hour and 55 minutes, and it is quite likely that a two hour schedule will be made for this run. The conductor will probably be William Hahn and the motorman Hugh Oatman.

The early train will leave Zanesville at 6:55 a. m., reach Newark at 9:45 a. m., and Columbus at 8:50 a. m., or an hour and 55 minutes running time. Returning it will leave Columbus at 9:55 a. m., reach Newark at 11:05 a. m., and Zanesville at 12:55 a. m.

The second will leave Zanesville at 12:55 p. m., Newark at 1:45 p. m., and Columbus at 2:50 p. m., leaving Columbus at 3:55 p. m.

H. D. VANKIRK, FORMER GRANVILLE MAN CRUSHED TO SHAPELESS MASS

Alone in Room When He Was Dragged Into Dough Mixer
At Columbus Bakery—Had Just Been Visited
By Relatives From Licking Co. and
Had Had a Merry Christmas.

"This is one of the saddest Christmas of my life," said H. D. Van Kirk, a former Licking county man, victim of the fatal accident Wednesday at Columbus, when he bade good-bye to his mother, aged 87 years, his sister, Mrs. Anna Williams, and his twin brother, who had gone to Columbus from a farm near Granville to spend Christmas with him. Mr. Van Kirk left shortly before 4 o'clock and said that he would be unable to get back in say good-bye later in the day. Within a few hours he was killed.

His folks left on an early train for Granville, and while they were on their way the news reached them that Mr. Van Kirk was dead. The aged mother, with her daughter and son returned at once to Columbus, their joy turned to grief.

The victim of the accident was a son of the late Benjamin Van Kirk, and was born in Union township, near Granville, 47 years ago. He is well known by many people in Granville. He was a brother of Horace Van Kirk, who resides in Union township, close to the Granville township line.

Falling into a sponge mixer full of dough, which he was feeding at Columbus, Wednesday, H. D. Van Kirk, aged 47 years, a former Licking county man, residing at 62 Innis avenue, at Columbus, was whirled round and round until every bone in his body was crushed before the machine could be stopped and he was extricated, a corpse. The accident occurred at the Bliss bakery, Columbus, where Mr. Van Kirk has been employed for the past 15 years as assistant superintendent.

No one was on the second floor when he fell into the mixer. He was probably standing on a bench feeding the ingredients of the dough when it slipped and he fell headlong into the huge cup, in which the blades revolve.

The body was found by James Early, a colored porter, who noticed the head and feet bob up and down in the mixer. "I saw first a head, then

two feet and I knew that something awful must have happened," said Early. "I ran down stairs and told Mrs. Gibbs that someone was in the dough mixer and she said she could not see how it was so because she just left Mr. Van Kirk two minutes before and he was all right. Then she and I and some boys ran upstairs and stopped the machine which was going around at a fearful rate. Mr. Van Kirk was all ground round in with the dough and all we could see was his feet and head."

Before removing the unfortunate man from the machine the coroner was summoned, and with the aid of Michael Miller and several others, the blades were turned so that the body was slowly pulled from the machine. Every bone in his body was broken, with the possible exception of his left arm, which was bent around behind him.

Mr. Van Kirk's body was not mangled, nor was he cut or bruised. The life was crushed out of his body and he lost considerable blood. After the body was extricated it was removed to the morgue by Coroner Murphy.

Mr. Van Kirk went to work as usual at 4 o'clock Wednesday morning. It is said by some that his arm might have been caught and the rest of his body dragged into the machine and this is probable.

Mr. Van Kirk had lived in Columbus about 25 years. He was born near Granville in 1859. He was one of the organizers, and at the time of his death one of the trustees of the South High street Methodist church, of which Rev. C. F. Prior is pastor. The funeral services will probably be held from the church Saturday.

Mr. Van Kirk was also a member of the Junia lodge of Odd Fellows.

Mr. Bliss just arrived in Columbus Wednesday. He was not in the shop at the time of the accident. He said that Mr. Van Kirk had been with the establishment for the past 15 years, but was not a regular dough-mixer.

Mr. Van Kirk is survived by a widow.

COSHOCTON MAN SERIOUSLY WOUNDED AND HIS WIFE IS LODGED IN JAIL

Coshocton, O., Dec. 27.—As the result of a drunken family brawl at their home, 724 Vine street, Levi Bordenkircher lies desperately injured with a 38 caliber bullet buried somewhere in his abdomen and his wife, Ida May Bordenkircher occupies a cell at the city jail charged with the shooting.

Details of the tragedy have been very hard to get at as the wounded man has thus far refused to give any information or to make charges against his wife, and no one connected with the family will assume the responsibility of an explanation. In fact, there has been an apparent purpose to hush the matter up by all concerned.

His condition is very serious. The bullet passed through the panel of a

door before it struck Bordenkircher. It went through the thinnest part of the door leading from the bedroom into the kitchen and he must have been standing quite near. He was unable to tell the doctor just what position he was in when shot.

Mrs. Bordenkircher said she could assign only one reason for the quarrel except that they were both drunk. She said it always made her husband mad when she went to Canal Lewisville. She went there Sunday evening to visit at her father-in-law's and had returned home.

Mrs. Bordenkircher says Levi brought home a pint of whiskey and they both got drunk. She had a bad cold and needed the whiskey she said. Mrs. Bordenkircher waived examination and was bound over to court under \$500 bail.

discuss, aged 56 years. He is survived by his widow and two daughters by his first wife. This makes the seventh death that has occurred in this family since March, 1905, three brothers and three sisters having preceded him to the grave.

LITTLE GIRL'S DEATH.

The funeral of the little 7 year old daughter of Mr. and Mrs. Pearl Hildreth, who died at the home of the parents near Concord, this county, on Christmas day, took place in Alexandria on Thursday afternoon at 1 o'clock, the interment being made in the Alexandria cemetery. Mrs. Hildreth was formerly Miss Jamison, a popular teacher in the Newark public schools.

Centerburg, O., Dec. 27.—Miss Josephine Smith, daughter of Mr. and Mrs. George Smith of Sunbury, died Tuesday noon, from pneumonia, after a week's illness. The deceased was 17 years of age. The remains were taken to Sunbury Wednesday. The funeral was held today at Sunbury.

ROBERT HAMMOND DEAD.

New Lexington, O., Dec. 27.—Robert Hammond, a pioneer resident of Perry county, passed away at his home on Eastern avenue, this city, at 4 p. m. Wednesday. His age was 83 years. He is survived by a wife and three sons, B. A. Henry and Edward Hammond. Funeral services will be taken to Sunbury Wednesday at 10 o'clock Friday morning.

DEATHS AND FUNERALS

MRS. ANN BEUTLICH DANKES.

Mrs. Ann Beutlich Dankes, aged 38 years, died Thursday morning at 1:30 at the Newark Sanitarium as the result of an operation on Friday last for tumor, since which time her condition had been critical.

The deceased was married to William Dankes proprietor of the Dankes bakery, on West Main street, on June 17 of this year. There remain to mourn her death two brothers, Peter and William Beutlich, one sister, Louise, the latter and mother, Mr. and Mrs. Benner, 27 Wilson street, beside the husband.

The body was taken to the Benner residence Thursday morning. The funeral will be held in the German Lutheran church Sunday at 1:30, the Rev. Mr. Wiesche officiating. Interment in Cedar Hill cemetery.

MRS. JOHN JONES.

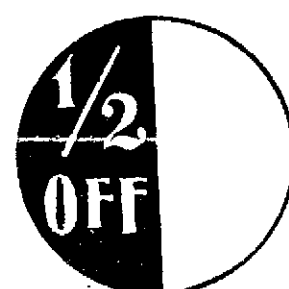

Mrs. Gas Walton of North Newark has received the sad news that her brother's wife, Mrs. Augusta Jones, died at her home in Pittsburg, Pa. Christmas day. Mr. John Jones is a former Newark man who has a host of friends here who will learn with regret of the death of his wife.

Launch Lost.

New York, Dec. 27.—Police launch No. 6, a small naphtha boat with three patrolmen aboard, is missing, and it is feared that the little craft and its crew are lost. The launch left Canarsie police station for Sheepshead bay. She was last seen off Sheepshead battling with the ice floes and apparently trying to make open water. Later the launch was lost sight of and has neither been seen nor heard of since.
